

Waqas Ahmed

Software Engineer | Backend Developer (Node.js & .NET)

Karachi, Pakistan | +92-315-0369361 | connect.waqasahmed@gmail.com

LinkedIn: [linkedin.com/in/waqasahmed10/](https://www.linkedin.com/in/waqasahmed10/) | GitHub: github.com/waqasahmed-01/

PROFESSIONAL SUMMARY

Backend-focused Software Engineer with hands-on experience across two stacks — Node.js/Express.js/MongoDB and C#/ASP.NET Core/SQL Server — building secure, scalable web applications and RESTful APIs. Skilled in authentication and authorization (JWT), database integration, error handling, and deployment. Currently contributing to enterprise-level development at Integration Xperts through the Future Leaders Program, collaborating with senior engineers in an Agile environment.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, C#

Backend Development: Node.js, Express.js, ASP.NET Core, REST APIs, JWT, Authentication & Authorization, Error Handling

Database & ORM: MongoDB, Mongoose, MySQL, SQL Server, Entity Framework Core

Frontend: HTML5, CSS, Bootstrap, React

Tools & Technologies: Git, GitHub, Postman, Thunder Client, Visual Studio Code, Command Line

PROFESSIONAL EXPERIENCE

Integration Xperts Pvt. Ltd.

May 2026 – Present

Young Leader – Future Leaders Program (FLP) | Backend Developer, Customer Xperience Department

- Participated in a six-month Future Leaders Program focused on hands-on software development in an enterprise environment.
- Generated and evaluated 10+ software product ideas based on potential market use cases.
- Led design and development of a customer feedback platform from concept to deployment, collaborating with senior engineers in an Agile workflow.

SELECTED PROJECTS

Customer Feedback Management System

Tech Stack: Node.js, Express.js, MongoDB Atlas, Brevo Email API, JavaScript, Bootstrap

- Developed a full-stack web application for collecting and managing customer feedback through email-based invitations.
- Built an admin dashboard to create feedback invitations using customer names and email addresses.
- Integrated the Brevo Email API to send feedback links with a 24-hour expiration period.
- Implemented invitation-link expiration after feedback submission and deployed the application using Render and Netlify.

Food Management System

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, Bootstrap, Custom CSS

- Developed a full-stack web application connecting food donors with NGOs to support food donation management.
- Implemented JWT-based authentication and authorization for secure user access.
- Developed donation creation and acceptance workflows to manage the donation process.
- Built an admin dashboard for system-wide monitoring and management.

EDUCATION

Bachelor of Computer Science

Shah Abdul Latif University, Khairpur Mir's

2022 – 2026 | CGPA: 3.08 / 4.0

CERTIFICATIONS / LEARNING

- Technical Domain Certificate – PITB Freelance Training Program (2023)
- Node.js and Express.js Certification – SimpliLearn (2025)
- Software Expo Participation – Shah Abdul Latif University, Khairpur Mir's
